

GLOBAL EAST ASIA TECHNOLOGY CO.,LIMITED

Product name:547-614MHz Terminal Antenna

Product model:GL491-600

Feature

Compact in structure ,elegant in appearance, ease to install
547-614MHz system supporting,suitable for mobile terminal devices,
applications: intelligent measurement,remote monitoring,
industrial internet of things.

Technical Data

Electronical specification

Frequency	547-614MHz
-----------	------------

Band Width	67MHz
------------	-------

Gain	3dBi
------	------

VSWR	≤ 1.5
------	------------

Radiation	Omni-Direction
-----------	----------------

Polarization	Vertical
--------------	----------

Max Power	5W
-----------	----

Impedance	50 Ω
-----------	-------------

Connector	BNC Male
-----------	----------

Material	Copper&PVC
----------	------------

Dimension	$\Phi 13 \times 130 \text{mm}$
-----------	--------------------------------

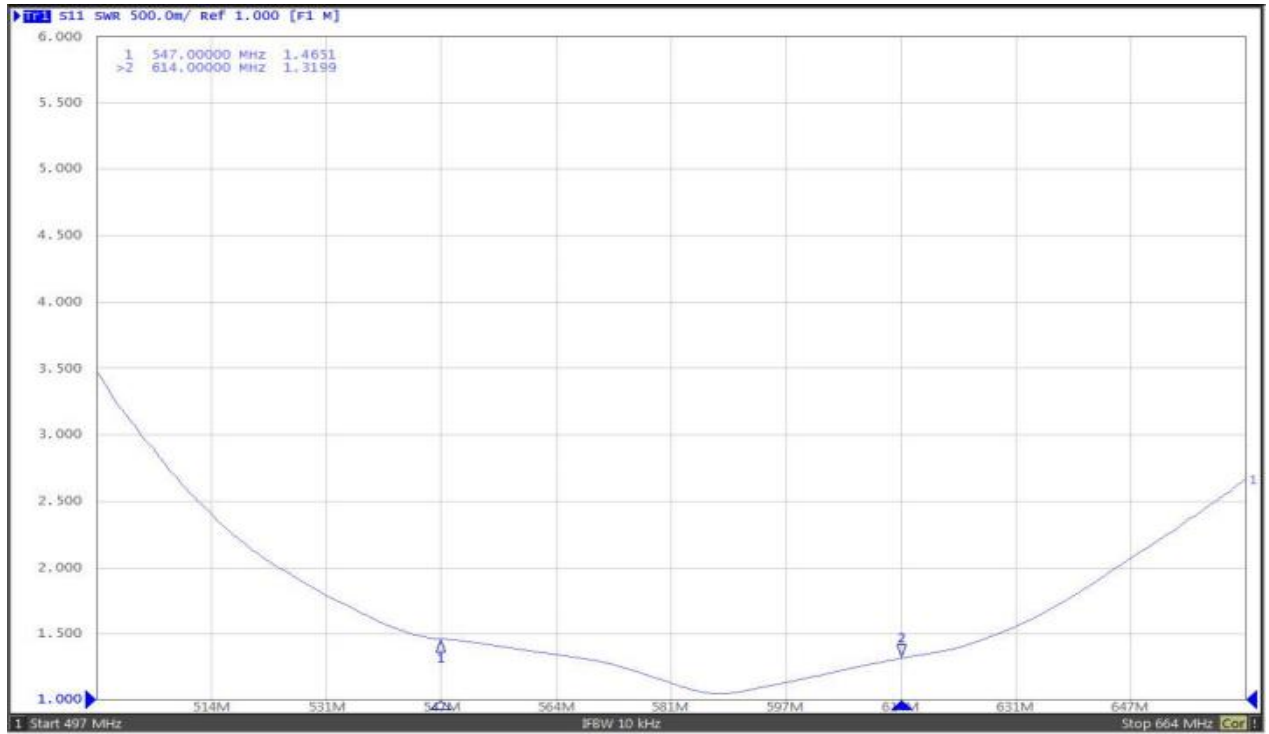

Weight	15g
--------	-----

Temperature	-40°C to +70°C
-------------	----------------

Add: Room826, Floor 8,BLDG 13, University Science Park(East), Zhengzhou City, P.R.Henan, China.
